

Q1 2026 Business Review — Executive Summary

Prepared by: Finance & Strategy | Date: April 10, 2026

Overview

Q1 2026 revenue finished modestly ahead of Q1 2025, driven by a strong March performance following the launch of the Spring Momentum promotion (20% off footwear and apparel, March 1-20). January and February were roughly in line with prior year and normal seasonal softness after the holiday quarter.

Watch Items Heading Into Q2

Two items merit continued monitoring in Q2. First, Riverside Commons (Austin, TX) has trended down since a competitor, TrailBlazer Sports, opened nearby in December 2025; see the Market Intelligence memo dated February 12, 2026 for detail. Second, the March promotion pulled forward demand that would otherwise have landed in April, so April comparisons should be read against an elevated March baseline rather than a flat run-rate.

Category Performance

Category	Q1 2026 vs Q1 2025
Footwear	+6.2%
Apparel	+4.8%
Accessories	+1.1%
Outdoor Gear	-2.3%
